

### **OUTSTANDING JUNIOR FACULTY OPPORTUNITY IN MOVEMENT DISORDERS**

Cedars-Sinai Medical Center, one of the nation's premier healthcare institutions, is expanding Neurology Programs and we are now recruiting a faculty member in Movement Disorders. The successful candidate will join an exceptional peer group and contribute to enhancing a nationally recognized clinical and academic department, including significant programs in Epilepsy, Vascular Neurology Neuro-intensive care, Neuroimmunology, Neuromuscular disorders and Behavioral Neurology. Cedars-Sinai is recognized as a Primary Stroke Center and a Level Four Epilepsy Center. We are currently seeking a **Movement Disorders Neurologist** at a Junior Faculty level to join our active movement disorders program. Collaborations with neurosurgery, neuroimaging, and neuropsychology are in place and active. We seek a fellowship-trained neurologist with considerable hands-on experience in deep brain stimulation and botulinum toxin injections.

Candidates must be board certified in Neurology, California licensed or license eligible, and qualified for appointment at the appropriate academic rank (Assistant Professor). We expect completed formal fellowship training in Movement Disorders and active research interests.

Academic appointment will be through the Cedars-Sinai professorial series and the David Geffen School of Medicine at the University of California Los Angeles will be provided. Cedar-Sinai Medical Center is committed to excellence in compassionate patient care, research, and community programs to improve the lives of patients. The new faculty member will join in implementing the department's strategic vision and will have access to cutting edge treatment modalities, and psychosocial and educational support to patients, families, and physicians.

If you are interested in this opportunity to join in an expanding Neurology team in a clinical and research environment, please send your curriculum vitae, at least 3 references, and statement of strategic vision to:

Michele Tagliati, MD, Director, Movement Disorders Program
